

y-SIS Newsletter

Be ready for the wave!

While packing for the summer travels do not forget your swimsuit! The wave of y-SIS events is rising and no one can stop it: our informal conference (**StaTalk**), a data competition (**Stats Under the Stars**), various sessions and prizes for the best contributions (at the **SIS meeting**)...

Below you can find all the details, but for real-time news do not forget to follow us on [Twitter](#), [Instagram](#) and [Facebook](#)!

StaTalk 2024

FLORENCE, MAY 30-31

The new edition of StaTalk shines: you will see even more events and opportunities since the conference spans **two days**. We are happy to announce that we expect more than 90 participants! The program features a plenary talk given by [Maria Francesca Marino](#) from the University of Florence and five invited sessions to give **young researchers** from all over Italy the opportunity to share their projects and research interests. A poster session (with more than 20 participants and some prizes to assign...) will conclude the scientific part of the conference. Alice Gabrieli, known as [Datajournalice](#), will be there to document StaTalk on socials!

Moreover, we are happy to announce that, for the first time in the history of StaTalk, the program includes a session devoted to topics related to **mental health**, and [ADI](#) will join us in the person of [Federico Chiariotti](#). We strongly believe

that this matter requires a thorough discussion, given its big impact on so many of us. Plenty of time will also be devoted to interaction among young researchers during the sessions and the **social meals**.

More information and details on the program can be found on the dedicated [website](#).

Stats Under the Stars

LECCE, JUNE 16-17

Stats Under the Stars (**SUS⁷**) is a **whole night event for young statisticians**, where different teams of young students and researchers will compete for the **analysis of a dataset** during the night in a friendly environment. The exciting challenge of this year (no spoiler for the moment!) will be provided by **Adecco**. Three prizes will be assigned by a dedicated committee, so the game is on!

SUS⁷ will take place in **Lecce** as a

satellite event of the SIS meeting held in Bari. There is time until **June, 2** to register at [this link](#). For more information and details, see the associated [webpage](#).

SIS2024

BARI, JUNE 17-21

The **52nd Meeting of the Italian Statistical Society** will be held at the University of Bari "A. Moro" on June 17-21. y-SIS will be present with **three invited sessions**. More information can be found on the dedicated [website](#).

During the conference, we will award **two prizes** for the best contributions presented by a y-SIS member: the **Best PhD Student Contribution Award** and the **Best Young Contribution Award**. The prizes are reserved for y-SIS members who will give a talk at SIS2024 in compliance with the payment of the annual fees. You have time until **May, 15** to apply by filling [this form](#).
